About FG Wilson Miami

FG Wilson Miami specializes in genset sales to Latin America and the Caribbean. We have knowledgeable and experienced staff in Sales, Parts, Support and Logistics all under one roof giving you fast and flexible answers to your generator needs. With more than 20 years of experience in the Americas, our list of satisfied customers is long and growing.

Specialists, Knowledge, and Product expertise

No one knows generator sets like FG Wilson. For more than 35 years we've been at the forefront of our industry, providing top-quality gensets to our clients in 180 countries.

Unlike many of our competitors that sell compressors, industrial machinery, and generators among other products, gensets are our world. They're all we sell. All we service. All we know -- and we know gensets.

We have experienced staff ready to guide you and assist with the selection of the best unit for your situation.

Experience and Innovation

We build more than 50,000 gensets a year and regularly refine our gensets based on your feedback and practical information gained in the field. Our international experience -- from the Amazon to Antarctica -- means we've found creative answers to every situation.

Looking forward

Whatever genset you buy, you should expect it will last at least 15 years. When you buy a FG Wilson, you're not just buying a machine, but a trusted company that will be around to help you for the life of your genset.

Contact FG Wilson and we'll put our experience to work for you.
